ALZHEIMER'S DISEASE

Sheikh AS

Resident

Department of Medicine, King Edward Medical University & Mayo Hospital, Lahore, Pakistan

MEDICAL POEM

Received on 17 Oct 2014

Accepted on 25 Oct 2014

Published on 30 Nov 2014

-Alzheimer's, Alzheimer's, it's called the Alzheimer's
Confusion, and memory loss, it's all about Alzheimer's

-Dementia it causes, progressive it is
Without a cure, aggressive it is

-Brain scans show a typical picture
Plaques and tangles show up on the picture

-With no cause known, elderly are affected
Sometimes however, younger are affected

-A genetic causation has been advised
With multiple genes, so called devised

-Neuro-degeneration it causes ultimately
Withdrawal from society is seen subsequently

-Caregivers are devastated, and health budgets drained
But the poor patient is still left rotten and untamed
